

introducing *together*.

but not the together that you're used to.

this together transcends connecting.

its no longer about simply bringing you to me,
from point A to point B.

together is real connection.

it doesn't always happen with phones, emails, feeds,
tweets or a text from your mom.

together is the magic that can only happen
when i can see you, and you can see me
and i know that you are here...

so we can come closer than ever
to feeling like we are

truly *together*.
